Detailed Action

Claims 1-8 are pending.

In claim 1, line 6, lines 14-16, and at all other occurrences throughout claims 2-8, the phrase "a suitable base" and the phrase "a suitable temperature" and "suitable catalyst" and a "suitable solvent" are objected to. It is unclear what is a suitable base or a "suitable temperature" or a "suitable solvent" for this particular reaction.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A. The radical "R3" in line 2 of claim 1, page 18 of the amendment filed 4/10/2002, on page 22, line 11, and all other occurrences throughout the claims are ambiguous because R3 as defined on page 22 can not be hydrogen. However, as it is defined for formula I on page 19, lines 3-5, R3 can only be equal to H. Appropriate clarification and/or correction is required.

The IDS filed 2/12/02 and 7/30/02 have been considered.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Binta M. Robinson whose telephone number is (571) 272-0692. The examiner can normally be reached on M-F (9:30-6:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph McKane can be reached on 571-272-0699.
